

Worksheet 2

Chemistry of transition-metal ions 1 (with sodium hydroxide)

Wear eye protection

Addition of 0.4 M sodium hydroxide solution

Place 2 drops of 0.1 M salt solution in each circle across the central line.

Along the top row, add one drop of 0.4 M sodium hydroxide solution. Stir with a pointed wooden splint.

Along the second row, add 6 drops of 0.4 M sodium hydroxide solution. Stir with a pointed wooden splint.
